Come Join us at the Out to Innovate™ Summit for LGBTQ+ People in STEM on March 4-5 !

NOGLSTP is proud to present its signature program, the Out to Innovate™ Summit for LGBTQ+ People in STEM on the weekend of March 4-5 at the DoubleTree by Hilton in Danvers, Massachusetts. All are welcome to attend. Our exciting program consists of:

Keynote Speakers –

Victoria Orphan - Professor of Environmental Science and Geobiology at Caltech, 2016 MacArthur Fellow. She is a geobiologist whose studies of microbial communities in extreme environments are shedding new light on the biogeochemical processes underlying the cycling of nutrients and energy that shape the Earth's climate.

Raynard Kington - President, Grinnell College, former acting director of the NIH. His research includes social determinants of health, and more recently, diversity in the scientific workforce.

Kei Koizumi - Former Assistant Director for Federal Research and Development and Senior Advisor to the Director for the National Science and Technology Council at the White House Office of Science and Technology Policy (OSTP).

A great lineup of **Out to Innovate™ 2017 Summit Workshops** covering a diverse range of topics. See the complete list of workshops and presenters on page 3 of this issue.

Our spectacular **Gala Awards Dinner** featuring our scholarship winners, NOGLSTP's 2017 Recognition Awards Winners, and a special performance by singer-songwriter Randi Driscoll.

This program only happens every two years, so don't miss it!

AAAS 2017 Annual Meeting – February 16-20 in Boston

NOGLSTP will be hosting its LGBTQA Scientists Reception again this year at the AAAS 2017 Annual Meeting in Boston. Look for it in the program for Sunday, February 19 from 3-5pm in the Exeter Room of the Sheraton Boston Hotel. Refreshments will be served and the event is free to registered meeting attendees. Local LGBTQ+ STEM people are also welcome to attend.

NOGLSTP's Annual Meeting will not take place at AAAS this year. It will instead be held at the Out to Innovate™ 2017 Summit on March 5.

Meet NOGLSTP's 2017 Recognition Awards Winners

The NOGLSTP Recognition Awards were established as a means of identifying, honoring, and documenting the contributions of outstanding LGBTQ+ science, engineering and technology professionals, as well as corporations, academic institutions, and businesses that support LGBTQ+ professionals in the fields of science and technology. We are pleased to announce this year's award winners for Educator, Engineer, and Scientist of the Year.

Dr Anthony Butterfield - NOGLSTP's LGBT Educator of the Year

Dr. Anthony (Tony) Butterfield is an Assistant Professor (Lecturer) in Chemical Engineering at the University of Utah. He has an extensive publication record in both education and engineering journals, and has made a significant contribution to engineering education at the University of Utah. He has been honored twice as an outstanding instructor in his department, has received an award for outstanding teaching from the College of Engineering, and been recognized by the dean of his college as being in the top 15% of faculty in student evaluations for every class he has taught.

Dr. Butterfield has developed a strong mentoring partnership with AMES (The Academy for Math, Engineering & Science) High School, where he conducts a two week course on chemical engineering for their Introduction to Engineering course, and has mentored eight of the school's students as interns. It is clear through his activities outside of the classroom that he is active in the LGBTQ+ community and supportive of LGBTQ+ students at both his institution and in the wider scientific community. He has enabled significant growth for LGBTQ+ students in science and technology through teaching and outreach, and with innovative use of on-line widgets and tools that demonstrate concepts for his courses.
